

CAUTION

To Parents and Guardians

- ① This product is not a toy. It is a miscellaneous item.
- ② Do not give this product to children under the target age. If you do, always keep a constant eye on your child (ren) while the product is in use. Never give to small children under 3 (three) years old, as there is a risk of accidental ingestion.
- ③ This product is not food, nor is it edible. Never put it into your mouth. There is a risk of choking or suffocation. Keep out of reach of small children. In case of an accidental ingestion, consult your doctor immediately.
- ④ Keep the products away from any fire source. It may cause a fire.
- ⑤ Some products contain small additional parts. Be sure to take care that your children do not swallow anything.
- ⑥ Do not wrap the ball-chain around fingers. There is a risk of constricting or stopping bloodflow.
- ⑦ Due to the characteristics of the materials, there may be some small holes, air bubbles, splits in the seams, spots, etc., on the product. Please understand that this does not mean the product is defective. However, if it is on the character' s face, the item may be defective, so please consult with the shop you purchased it from.
- ⑧ The main characteristic and appeal of the product is the extreme softness. This may lead to: many wrinkles on the surface, looking darker partly because of bubbles or a hole near the surface, not returning completely back to the original shape if it is squeezed too strongly, etc.
- ⑨ Due to the characteristics of the product type, there are individual differences in softness or speed of returning to the original shape after squeezing, even between the same style of product.
- ⑩ The product might have some wrinkles or shiny spots due to possible adhesion to the packaging. However, this does not mean that the product is defective. If the product has become glossy, rub with a dry cloth, and it will make it less noticeable.
- ⑪ There might be cracks or tears around the ball chain holding part due to the structure and material of the product. This does not mean that the product is defective.
- ⑫ Especially for metallic-colored ball chains, the paint may chip off or peel with age, humidity, or temperature. However, this does not mean that the product is defective.
- ⑬ When opening the package, if the smell of the squishy material or paint is strong and overwhelms the actual original scent, do not sniff it or inhale the fumes, and leave it in a well-ventilated place about 2 (two) days outside of any packaging.
- ⑭ The intensity of the scent depends on the type. The scent is not permanent, and may weaken over time.
- ⑮ Please don' t put the product into your bag directly. It may stick to your bag, or other goods, depending on their material.
- ⑯ Depending on the material of the things you put the product on, it may cause spots or discolorations.
- ⑰ Please don' t strongly pull on the product. It may be torn apart.
- ⑱ Please don' t pull the ball-chain strongly. It might be pulled out, and tear the rest of the product.
- ⑲ The color may wear off if the product is strongly gripped or rubbed. Also, handle gently as dimples, protrusions, and overlapping painted areas can easily be ripped.
- ⑳ Printed areas such as the face may darken while being squeezed.
- ㉑ When you store the products, put into individual bags. If several products are touching each other as they' re kept, they may stick together or cause discoloration.
- ㉒ If the product is left in direct sunlight or under fluorescent lighting for a long time, it can cause the product to brown or otherwise change color.
